## Fraxion Lucifer Lighting

Fraxion is one of the shallowest family of high performance downlights in the industry and possibly the only wet location downlights identical to their dry location model. Fraxion's elegant profile is available in true Trimless and MicroFlange. Advanced hot-aim adjustment mechanisms are concealed with no visible fasteners, featuring a unique sliding pivot point that optimises centre beam optics. Proprietary optics in 13°, 25°, 40° and 60° beams. Fully dimmable LED source 700LM/7W to 3,000LM/35W, in 2,700K to 4,000K. Standard 90+ CRI and 97+ CRI.
