Squilinder by Lucifer Lighting

The luminaire features a dimmable LED module from Citizen in three CRIs: 80, 90, or 97.

By [ELIZABETH DONOFF](#)

Squilinder, Lucifer Lighting

The latest addition to the company's Cylinder family of luminaires, the Squilinder features a dimmable LED module from Citizen in three CRIs: 80, 90, or 97. Field adjustable, the fixture can be hot-aimed without tools up to a 90-degree tilt and with a 365-degree rotation. Proprietary optics can also be changed on site and include a beam spread range of 15 to 60 degrees. Squilinder delivers 47 to 73 lumens per watt. Its housing measures 4.8" tall by 3.1" wide. Mounting options include surface-mount fixed or adjustable; wall-mount up-down or downlight; and suspended-mount pendant or adjustable stem. luciferlighting.com
